The number of hours per week the pharmacy will be open to the public: _____

The number of hours per week the licensee, on average, will be present at this pharmacy¹: _____

¹ The legislation was developed on the premise that a licensee is a clinical pharmacist, practicing at the pharmacy for which they hold a licence, and who would be present for a regular and significant portion of the time that services are provided from the pharmacy. This presence is important for the licensee to personally manage, control, and supervise the day-to-day operation of the pharmacy. Being present means being in attendance at the pharmacy. It does not mean that the licensee must be engaged in patient care activities for the duration of this time, as time is required to fulfill their licensee responsibilities. This also excludes vacation and or short-term illnesses that are less than 90 consecutive days.
