Overview of the pharmacy assessment process

1. Assessment notification
2. Licensee and pharmacy team education
3. Self-assessment
   - Continue making improvements to operations and practice
   - Pharmacy team feedback to ACP
   - Follow up by practice consultants
4. On-site assessment
   - Correct deficiencies, implement practice changes

Symbolizes a routine assessment. Though the first three steps containing this symbol occur for this type of assessment only, the college strongly encourages ongoing team education for the advancement and continuous quality improvement of pharmacy practice in Alberta.
