

Completing the CIHI survey

Every year when pharmacists renew their practice permits, ACP collects updated demographic information to report to the [Canadian Institute for Health Information \(CIHI\)](#). CIHI is an independent, not-for-profit organization that provides comparable and actionable data and information that are used to accelerate improvements in health care, health system performance, and population health across Canada. This information is used to supply anonymized data to support health workforce planning.

Before renewing your annual practice permit, pharmacists are required to complete the CIHI survey. Here's how:

- Navigate to the ACP website (abpharmacy.ca)
- Click the myACP button on the top right corner.

- Once you are logged in to myACP, refer to your profile.

- Click the "CIHI statistics survey" tab.

- Click the link to the CIHI survey.

Canadian Institute for Health Information statistics survey (CIHI)

Every year when regulated members renew their practice permits, ACP collects updated demographic information on behalf of the Canadian Institute for Health Information (CIHI). CIHI is an independent, not-for-profit organization that provides comparable and actionable data and information that are used to accelerate improvements in health care, health system performance, and population health across Canada. This information is used to supply anonymized data to support health workforce planning.

* Indicates required

Registration
